Assignment 1

HTML/Resume Assignment

Build a page with your information from your résumé.

Your page must have the following content:

- Your name should be at the top of the page as an `<h1></h1>` heading
- Use heading tags for all your section heads
- Use the address tag (You can use a fake or school address)
- Write a paragraph about yourself
- Add a photograph of yourself
- Add Work Experience displayed as an HTML ordered or unordered list.
- A list of hobbies or interests displayed on a table (use more than 1 column, maybe indicating the hobby and the number of years)
- Include at least one HTML comment.
- Use Bold/Strong and italics/Emphasis twice
- Include 2 links
- Use of semantic Markup
